Subject: Re: JFK Assassination former Investigator/Expert for DA Jim Garrison Asks...

Dear Ms. Sullivan:I will provide you with my credentials and the nature of my material. Since I've decided not to go the route of exploiting this material via writing a book, while I take nothing away from those who have with integrity, I will have to ask your forgiveness for the time delay since I've an active p.r.practice and it will take some time to do what you've requested. In the meantime, Mark Lane, Richard Russell, Mary Farrell and many others could vouch for me. I'm not willing to give a great deal of my time to evaluating this material, though I was willing to help produce the video, "The JFK Assassination: The Garrison Tapes" (in which I actually appear, for the first time ever) but I will attempt to do so for you in the near future. Best, Steve Jaffe
