Subject: Carver Gayton
Can you tell me if the ARRB ever deposed Carver Gayton, the ex-FBI agent who worked with Hosty in Kansas City and signed a sworn affidavit for the Senate's Church Committe stating that Hosty told him he had "listed" Oswald as a "Potential Security Informant" and tried to develop him as such?I have the document, and Gayton's address if you need it....Bill Parkerwparker@kendaco.telebyte.netP.O.
