Subject: FBI records withdrawn from appeal

Total number of records withdrawn: 21 (however, because this total includes duplicate records in different parts of the FBI files, one could say that 21 COPIES of 10 different RECORDS have been withdrawn). Prior classification level: Secret Date range: 1960 to 1967 Files located: FBI investigative files on Lee Harvey Oswald or on the assassination of President Kennedy One pre-assassination record: A May 1960 report discussing investigation of Oswald and his family (note that Oswald was in Russia at this time). Other records pertain to: foreign government reaction to assassination; coverage of the assassination by foreign correspondents; critics of Warren Commission; Clay Shaw. Effect of Board decisions: 13 of these records opened in full (7 records plus 6 duplicate locations) 8 of these records opened, with only "source symbol numbers" redacted (3 records plus 5 duplicate locations). The FBI had previously argued that releasing this information would prejudice current foreign counterintelligence operations and harm foreign relations.
