Greetings and Info on X-FBI Agent Speaking out
 Dear Mrs Sullivan and other ARRB Board members. Below, please find a notice I am posting on the internet JFK
 newsgroups. I think the Board may also be interested :) I have spent many hours conversing with Don Adams,
 and I have waited a couple years for him to retire from the police chief job, so he could freely talk publicly
 about his opinions on the JFK assassination, and I am glad he is being so active! I haven't written you before, so
 let me introduce myself... I am Deanie Richards, live in Akron, OH, publish a journal (currently on hold) named
 JFK Honor Guard, and since early 1994 have been building an internet site named JFK Place. JFK Place was one
 of the few named (and complimented) in the recent Washington Post article on the topic of assassination-
 related sites on the internet. I am hoping to eventually make my site (presently on a gopher server, not a www
 one yet) the one-stop site for all related matters. gopher://freenet.akron.oh.us:70/11/SIGS/JFK While I
 currently archive a great deal of information, it is only the beginning :) I was slated to speak to the Board in
 Washington, DC in October of 1993 or 1994. I was the person who went out to feed the parking meter, and my
 name was called to speak when I was outside. Didn't it just figure! Please know I am very proud of all of you for
 putting such strong efforts into helping our country resolve these continuing issues of open files, truth, and
 making an accurate historical record. I have been comforted knowing you all are doing such important work so
 sincerely. It makes me feel resolution will indeed come: I do know that without your dedicated efforts, no end
 to these matters will ever be gained. I thank you all so very much! Sincerely, Deanie Richards 1285 Sunrise
