Subject: Jeff Morley

FYI:Morley called today to tell me that the JFK Collection, more specifically documents reviewed by the Board and sent to the Collection, are a mess. He thinks it is a NARA problem, but he wanted to let us know. He said he is also calling Steve Tilley. For example, he said the documents are out of order, some final determination forms read "open in full" but the document still has redactions. He offered to fax some examples to us -- I accepted and await their arrival. Not only does Morley want to see the documents, he (correctly) pointed out that this could raise some unnecessary concerns among people in the research community. I told him I would look into it and get back to him. Why I am really writing this note: At the end of the conversation he asked when you would be in town next. I told him I thought toward the end of the month. He asked for your number, and even though I don't think it's a problem, I told him I wasn't authorized to give out your number (better safe than sorry.) He said that was fine and he would like you to call him. let me know if any of this babble is not clear.
