Subject: Re: ARRB Official Transcripts

Assassination Records Review Board
Eileen A. Sullivan
Assistant Press and Public Affairs Officer
Dear Eileen Sullivan:
I really appreciate your efforts with regard to transcripts of the hearing on diskette. I hope to think my little project may help to get more public notice of the ARRB. You and the rest of the people at ARRB are doing a splendid job, from what I can tell. Just having the public testimony is worth its weight in gold. I was quite impressed by the forthrightness with which the witnesses testified before the ARRB. I might add that I have been paying light attention to the Truth Commission in South Africa, with regard to the crimes committed under Apartheid, and the amnesty granted to the various officials who are now 'fessing up to misconduct. From the limited comment I have seen, it appears to be having a healing effect in South Africa. I understand that a similar process may be occurring in Argentina, with regard to the "disappeared ones". In my humble opinion, it appears that the ARRB is having a healing effect upon the American public, who may be coming to realize that there may be closure in sight (in our lifetimes) with regard to the JFK assassination. At the risk of being a pest, I would also appreciate copies of the record from hearing which were left open for public comment on the definition of "assassination record" and the public's views about the status and disposition of the Zapruder film. Thank you again.
