Subject: please read

the attached call report and let me know if I have accurately characterized our conversations. If not, let me know. CALL REPORT Document's Author: Eileen Sullivan/ARRB Date Created: 05/27/97 The Players Description of the Call Date: 05/27/97 Subject: Board policy regarding HSCA documents Summary of the Call: Jeff Morley called to follow-up on an inquiry he made approximately one week ago. Morley called to let me know that some documents in the JFK Collection, released by the Board, have final determination forms inconsistent with the attached document. On May 22, 1997, Morley faxed an example to me. This example is HSCA document number 180-10078-10035. The Board's final determination form reads "Status of Document: Open in Full." The document has a few redactions. I checked with Brian Rosen for clarification. Rosen stated that the final determination form is correct because the Board votes on HSCA documents as they were given to the HSCA. This particular document (180-10078-10035) has FBI equities and the HSCA received this document from the FBI with these redactions. Therefore, as the document was reviewed by the HSCA, and as the document was reviewed by the Board, its status has not changed and is "open in full." I relayed this information/explanation to Morley today and he was not pleased. He said that if that is the case, the Board is not upholding the law (JFK Act of 1992.) I further explained that this document was originated by the FBI, and that the status of this document may be different elsewhere in the Collection, and that I would check that. After my conversation with Morley, I talked with Rosen who verified what he initially told me (the Board votes on HSCA documents as they appeared to the HSCA, not as they were before given to the HSCA.) I assured Morley that if there are inconsistencies in the Collection, I agree with his suggestion that this should be corrected. I told him I am still looking into this and I will call him with any new information. Morley also mentioned that he will be faxing a list of documents that were noted in the Federal Register but are not in the Collection.
