Subject: Canada and the JFK Assassination Web site

The web site Canada and the JFK Assassination have moved to a new ISP.You can visit it at:

<http://www.cam.org/~mphilip/home.htm>The objective of this site is to publish little known but

reliable information about the JFK assassination.For example, you shall learn there that new released documents show that LeeHarvey Oswald did a trip to Montreal in August 1963, and perhaps in Spring1963, at times where he was officially moving from Dallas to New Orleans,and vice-versa.Others document included in Warren Commission volumes also show thatOswald's companion during his Mexico trip was a Montrealer.Also, readers who are interested in the alleged Corsican connection to theJFK murder, will learned more about its ramifications with the Trafficanteorganisation and Canadian criminal figures such as Lucien Rivard, aTrafficante associate linked to Jack Ruby and to Michel-Victor Mertz who wasexpulsed from Dallas on November 23, 1963.Your comments and critics, on both the form and the content of this Website, are welcomed.Thanks, Maurice Philipps mphilip@cam.org
