Subject: Release of JFK documents
Just wanted to let you know that as a citizen I am appalled at the amount of documents relating to the JFK assassination that have not been released to the public for so-called security reasons ... after 35 years. At the moment I am interested in having information released concerning a group referred to as "the Loyal Order of Mountainmen". There are 9 references to the group in the JFK Assassination Records Collection but no information has been released at all. How do I start the process to get them publicly released? Also there are a lot of documents concerning David Ferrie's roommate, Layton Martens but the vast majority are off limits. Any progress to be made therein terms of releasing these documents?
