**Subject:** document for Anna  
I spoke with Anna today and she said she is looking for a brief CIA document with historical value that she can use for an upcoming article in the OAH newsletter. The purpose is to show one document with a lot of redactions, and then to show what it looks like after Board action. She mentioned a document that relates to the wiretapping of the Cuban embassy -- ring a bell? We may have to got through Steve Tilley to get a copy.
