Subject: Request for information

Body: Dear Mr. Dreyer: The Assassination Records Review Board was established to oversee the release of documents that relate to the assassination of President Kennedy. Once the Board votes to release these documents, they are processed and sent to the National Archives and Records Administration, where they are made available to the public. We do not have any opinion about the records that we release, and we do not side with any particular theory. I can, however, provide you with information about the work we do, and why we exist. I have sent that information as an attachment, and if you cannot access it, please let me know and I can send it another way. Since you are arguing that Lee Harvey Oswald was the lone assassin, I suggest you get a copy of the Warren Commission report from your school or local library. The Warren Commission concluded that Lee Harvey Oswald was the lone assassin. I hope this information is helpful to you, and good luck with the debate. Sincerely, Eileen A. Sullivan
