THIS IS FROM A FRIEND OF MINE HERE IN TOWN THAT IS RELIABLE. Janel heard this on the radio recently....thought I would pass

iton.....Cathy~~~~~I have just received the following from one of the other lists I am on and thought maybe you all would appreciate reading it. Here it is:I got this forwarded to me and thought it kinda scary.I received a telephone call from an individual identifying himself as an AT&T Service Technician that was running a test on our telephone lines. He stated that to complete the test we should touch nine (9), zero (0), pound sign (#) and hang up.Luckily, we were suspicious and refused. Upon contacting the telephone company we were informed that by pushing 90# you end up giving the individual that called you access to your telephone line and allows them to place a long distance telephone call,with the charge appearing on your telephone call. We were further informed that this scam has been originating from many of the local jails/prisons. I have verified with UCB Telecomm. that this actually happens. Please beware.This sounds like an Urban Legend - IT IS NOT!!! I called GTE Security this afternoon, and verified that this is definitely possible and DO NOT press 90# for ANYONE. It will give them access to your phone line to make long distance calls ANYWHERE!!!!The GTE Security department told me to go ahead and share this information with EVERYONE I KNOW!!! What people won't think of!
