Subject: page count for documents released to JFK Collection

Dear Steve:Thanks for your message. Peter Voth created a view in our database that shows document and page totals. There are some glitches, but it does give a pretty good estimate.FYI: estimates are 35,000 documents and 242,200 pages that have been processed by the Board (including consent releases) Fileen

Body: documents and 242,200 pages that have been processed by the Board (including consent releases). Eileen
