Secret Service Agents: Conspiracy and Exit Wound on RIGHT REAR OF JFK's Skull  
because most of them are now deceased):1) Samuel A. Kinney- Sam told me this three times (he also stated that he found the notion of conspiracy "plausible" to the HSCA, based off the recently-released contact reports available thru the ARRB/ Archives). He thought Oswald was the lone shooter, although he stated emphatically that there were no missed shots (!)- he spoke to Connally about this and THE GOVERNOR AGREED WITH SAM! Sam also told me that the "right rear" of JFK's head was missing [he later recovered THE piece of the president's head on the C-130], and that his windshield (of the follow-up car) and left arm were splattered with blood and brain matter. Finally, whether hyperbole or not, Sam said "He had no brains left". Sam passed away 7/21/97 while vacationing in Iowa. His wife Hazel told me she regretted that Sam is now forever unable to tell more...;2) Roy H. Kellerman- According to his widow June, Roy "accepted that there was a conspiracy"- this was based on June overhearing Roy's telephone conversation with someone from the HSCA in approx. 1977 or 1978. As we all know, Roy stated to the WC that "there has to be more than three shots, gentleman" and that a "flurry of shells" came into the car. Like Bill Greer, Roy is often added to the list of those witnesses who reported that the right rear of JFK's head was blasted. The above information was reported to author Anthony Summers for the Dec. 1994 VANITY FARE, p. 88 [uncredited]; you'll also find it in my book. Finally, Kellerman's daughter told Harold Weisberg in the 1970's that "I hope the day will come when these men [Kellerman and Greer\*] will be able to say what they've told their families";3) Abraham W. Bolden, Sr.- Abe is a firm believer in a conspiracy AND in Secret Service negligence. Also, Abe is adamant that there was a plot to kill JFK in Chicago in early November, 1963. I spoke to Bolden twice and corresponded at length with him between 1993 and the present. Bolden is currently working on his own book with his wife;4) Maurice G. Martineau- Abe's boss in the Chicago office, Martineau was equally adamant to me that a conspiracy took the life of President Kennedy. He also told me he finds the work of the HSCA much more valid than that of the WC. However, when it comes to info. on the Chicago plot, Martineau is afraid to give me details to this day...;5) John Norris- a member of the uniformed division of the Secret Service, Norris is a fervent believer in a conspiracy, although one gets the impression this is more based on his beliefs than actual knowledge, but I could be mistaken. Still, his views and beliefs are important for obvious reasons;6) \*Bill Greer- despite many suspicions I have about Greer's conduct on 11/22-11/23/63, he is a "default" addition to this list. In addition to Kellerman's daughter's comments mentioned above, he is also among those witnesses who, at least indirectly, gave testimony that the right rear of JFK's head was missing. Also, to the HSCA, he had much
