Subject: Ref: Assassination Records Review Board
 I am forwarding this note, and all others from him over the few days that you were gone, so that you can piece together one correspondence for his file. You may already have it all, but some of the e-mails have responses attached and some don't. If you already have them all, delete! Thanks.

 _____ Assunto: Assassination Records Review BoardAutor: "Laura Denk"
 <Laura_Denk@jfk-arrrb.gov> na INTERNET_GATEWAYData: 05/08/98 10:44Dear Mr. Paolozzi.Thank you for your interest in the work of the Review Board. I am e-mailing an electronic version of the Review Board's Staff Report that were released when we released the medical and autopsy records. I hope that thereport will answer some of your questions.You asked whether the Board examined "all the FBI and CIA files." I will address the two questions in turn. When the JFK Act was passed in 1992, the FBI identified as assassination records approximately 600,000 pages of records known as the "core and related" files on the assassination, which are the FBI's JFK assassination investigation file, the Warren Commission file, the Lee Harvey Oswald file, the Jack Ruby file, and files on related subjects such as Marina Oswald, Marguerite Oswald, Ruth and Michael Paine, and George de Mohrenschildt. The FBI also identified for processing another 400+ subjects that they provided to the House Select Committee on Assassinations (HSCA) for the Congressional investigation that the HSCA conducted in the 1970s. Beyond the records that the FBI identified itself, the Review Board submitted approximately 60 requests for additional information to the FBI and received records from the Bureau in response to each of its requests. The Review Board is nearly finished with its processing and with the release of all of the above-referenced records. On to CIA records. . . When the JFK Act was passed in 1992, the CIA identified as assassination records its "201" file on Lee Harvey Oswald..CIA opens a 201 file when it has an interest in an individual. The Agency opened Lee Harvey Oswald's 201 file on December 9, 1960 in response to a request from the Department of State on defectors. After the assassination of President Kennedy, the 201 file served as a depository for records gathered and created in CIA's wide-ranging investigation of the assassination. Thus, the file is the most complete record of CIA's inquiry in the months and years immediately following the assassination rather than an operational file on Lee Harvey Oswald. In addition, during the investigation conducted by the House Select Committee on Assassinations, HSCA investigators
