is having some problems with the veins in the hand that had the work done on it last month. The nurses that she saw last night (I think at the hospital) told her to have it looked at by her doctor immediately. So, she is going to try to see her doctor this morning and be in later today. I will cover for her if there are any notes to be taken during the Board meeting until she arrives. If they rest of you could help out with the coffee, lunch, photocopying, etc., (as you always do!) that would be a big help. Thanks.
