Subject:	J-Track Projects

Body:

This is an update on some of the J-Track projects I have been concentrating on.Manuel CalvilloI am preparing a wrap-up memo but still need to look at the HSCA Numbered Files. I have found nothing new of interest in my review of CIA files and HSCA Security Classified files, nor at first glance, in the Numbered Files because nothing was listed under his name nor the alternative names. I now realize that the HSCA may not have indexed the interviews under his name but simply under "Outside Contact Report" of which there are many listed. I will need to finish reviewing those. I plan to complete this by Friday, 4/18.Silvia Duran I am preparing a wrap-up memo which I believe will be completed by Friday as well. I have found the second interrogation and wrote a summary tracking references to the various arrests, interrogations and reports about Duran. I just need to refer back to P.D. Scott's theory to see if there could still be a missing piece.CIA and PublishersI came across a couple of interesting documents in the microfilm on this subject. We also addressed the topic in the DO letter and are waiting for an answer.Mexico City SurveillanceI have completed my survey of the Microfilm but will still need to look at a few things at HRG. I expect to have a wrap-up memo by the end of next week (4/25). With the Board being in town and the precedence of document review, I will probably not be able to complete it before then. In addition, this issue was addressed in The Letter so we should also be getting a response from the DO at some point.Oswald Photos and Voice Tape ComparisonsI am in the process of collecting references, developing background notes, and intend to focus on this once I complete the above.
