**Subject:** Exner/Roselli files in L.A.

The Los Angeles field office has not yet responded to the HQ request for all file references to Exner. But the Task Force called out there and spoke with someone responsible for pulling the stuff, and L.A. has only retrieved two documents responsive to our request. They are still waiting on a search of the elsur index. I am not sure if this is because they did not index the files for Exner's name, but I told Carol that you would like to review the entire Roselli file when you are out there, and she agreed to do that. I guess you should read it for whether the entire Roselli field file should be processed as part of the collection, in addition to getting information on Exner.
