Investigative

- * Conducted telephone interview of John Judge from COPA for more information on New Orleans sources of assassination records.
- * Conducted in-person interview of Gene Wheaton, who provided information about a CIA officer friend of his who allegedly trained Cuban exiles in Louisiana in the early 1960's as part of the Castro assassination plots. Information will be passed along to Jeremy and Mary.
- * Conducted an in person interview of Jaqueline Hess, chief researcher for the HSCA, to develop additional names/addresses of HSCA staff for Gum Shoe issue 23.
- * Sent follow-up letters to five Louisiana state agencies that have not responded to our initial inquiries for cooperation.
- * Began initial inquiries to identify and locate possible subjects in New Orleans District Attorney Grand Jury Records case.
- * Reviewed SOLO files for additional leads for assassination records within CPUSA structure. Will follow up with David Garrow for additional names (I've written and asked him to assemble information on this.)

This was a short week - I was out of the office on personal business for two days this week.
