

Investigative Update for the Week Ending November 10, 1995

To: David G. Marwell
From: Anne Buttimer
Date: November 9, 1995
Re: Weekly Investigative Update

Anne

* I spent all day Monday and Tuesday following leads related to Richard Case Nagell's death, autopsy, the executor of his estate and related matters. I spent portions of Wednesday afternoon and Thursday conducting additional telephone interviews.

* I spent Wednesday morning at Archives II concluding my review of Warren Commission Exhibits and Documents relative to Gum Shoe issues 15, 16, 17, 18, 24 and 25.

* FINCEN sent a number of responses on Monday relative to Issue 23. I spent Wednesday afternoon and Thursday analyzing that information and entering it in the Public Contacts database.

Dave

* Dave spent a good portion of this week trying to get to the bottom of the Charles Bronson/John Sigalos story. He determined that Mr. Bronson died on June 30, 1995 and obtained a copy of the death certificate. He spoke with Mrs. Bronson and two of her sons-in-law. The family is interested in talking to us and will not make a decision about the Bronson film before hearing what the ARRB has to offer. Gum Shoe Issue 62.

* Dave is pursuing contacts with Patsy Paschall. He has not had any success trying to speak with her by telephone. I told him to send her a letter. Gum Shoe Issue 9.

* Dave is continuing contacts with Los Alamos Laboratory and Aero Space Corporation about the Nix film and reports the laboratory wrote for the HSCA (the latter does not appear to be in the Collection at this time.) Gum Shoe Issue 41.
