Lee,

Attached is a list of the documents voted at the 9/23/98 meeting. The first nine documents are the ones we discussed with the AF gentleman's name released. It may be helpful for you to have a record of how many postponements now exist in these records. Note that #144-10001-10251 is now open in full.

Also note, documents #144-10001-10281 and #144-10001-10291 are the remaining two from the latest batch of 109 documents that you sent. There are no additional postponements in 281, but there is one additional postponement in 291.

You may also recognize three of the final five documents as ones that you have already blacked and returned to us. I believe the documents marked with stars are these documents. They are on this list because of a database error. Officially they were voted on at the 9/23 meeting rather than the 9/14 meeting, but this is more of an internal administrative problem and shouldn't effect you.

If you have any questions, let me know. Again, Lee, thanks for all your help and patience. You've made this often irritating process much more bearable.
