Re: Status of Warren Commission Documents

Dear Mr. Leon:

Enclosed are copies of Commission Documents ("CD's") 384, 698 and 1551 as available at National Archives II ("NARA II"). These three CD's are the Warren Commission documents you referenced as "still secret" in your October 6, 1996 e-mail to David Marwell and Eileen Sullivan of the Review Board. CD 384 is currently open in full and CD's 698 and 1551 are currently open with only one redaction each.

Given the number of pressing items with which we need to deal, it is not our regular practice to locate and provide records for the public. However, the electronic database available to researchers through the National Archives occasionally fails to keep pace with the release and availability of records at NARA II. This delay between release of a record and update of the electronic database can create confusion regarding a document's status. We recognize that this process can be frustrating and we are working with Archives to improve the speed and accuracy of the system.

I hope these documents will prove useful to you. Please contact me if I can be of further assistance.

Sincerely,

T. Jeremy Gunn  
General Counsel
