

October 29, 1996

The attached duplicate documents, 104-10052-10192 and 104-10061-10035, were acted upon by the Review board at the August 1996 and September 1996 meetings. Due to a error in preparation by CIA, information for which the Review Board has regularly upheld postponements in the past was released in 104-10052-10192 but not in 104-10061-10035. Staff recommends protection of both redactions in both documents, as this is consistent with earlier Review Board decisions.
