

## MEMORANDUM

March 31, 1997

To: HRG Staff

From: Robert J. Skwirot

Subject: HSCA records

Attached is a list of HSCA documents, mostly from the numbered files, that have not yet been processed. They have been identified as likely to require CIA referral.

In the upcoming months we hope to be able to announce the completion of our review of the HSCA collection. Working toward that end, we ask your help as we try to clarify the status of the records on the attached list. Have they been reviewed by CIA? Do they even require CIA referral? The information and assistance you can provide will be appreciated.
