RE: Senator Schweiker's Church Committee Papers

The attached documents are copies taken from the papers of Senator Richard S. Schweiker, which are held at the Pennsylvania State University Archives in University Park. The documents refer to Senator Schweiker's introduction of S. Res. 243, which authorized the Senate Select Committee on Intelligence Activities ("Church Committee") to investigate issues related to the assassination of President Kennedy.

We were able to locate these documents with the assistance of the staff at the University Archives, and in particular Derek Beckner. Mr. Beckner provided us a copy of the finding aid for Senator Schweiker's papers, from which we were able to determine which record groups were most relevant. Mr. Beckner then reviewed the contents of the selected files. The vast majority were records that had already been made public, such as newspaper clippings and selections from the Congressional Record. However, Mr. Beckner did locate the enclosed documents, which had apparently not been made public.
