

1. Place disk 1 in drive a:
2. Use run command from start button or file menu and run A:\install then OK
3. Set the directory to C:\PCANY and select OK
4. When it asks what country you want to register in select USA
5. When it asks if you want to register select CANCEL
6. Remove disk from drive A:
7. Select REBOOT computer
  
8. Insert Upgrade disk in drive a:
9. From run menu select a:UPGRADE.BAT then OK
10. A dos window should open and you will need to press the Y key several times to install the upgrade software.
11. Pcanewhere program should be ready for use.
12. I will need to step you through putting in the credit card so please page me at 1-800-449-7076 when you have about 20-30 mins to test and get it working. Sundays would be a great day due to the fact I am in the office

Thanks
