Dear Paul:

I am writing to thank you for mailing me CIA Document 450 and the accompanying information; we received it on October 11th, and I was very appreciative of the fact that you mailed these items to me the same evening I called you.

I am in the process now of reviewing the other correspondence you have provided to the ARRB, particularly that involving the medical evidence. I can assure you that the staff is very interested in the medical issues related to the assassination and is pursuing them in a very thorough manner in an attempt to locate additional records for the JFK Collection at NARA which might clarify some of the ambiguities and conflicts in these areas.

Again, thank you.

Sincerely yours,
