

October 8, 1996

Mr. James R. Milch
Director, Imaging Science Division
Research Laboratories
Eastman Kodak Company
Rochester, New York 14650-1816

Dear Mr. Milch:

I wish to take this opportunity to thank the Eastman Kodak Company, and you and Mr. Zavada in particular, for your recent trip to Washington to discuss issues related to photography of the Kennedy assassination.

Mr. Gunn, Mr. Horne, Mr. Montague and I all benefitted greatly from your combined experience and expertise as we discussed the wide range of photographic issues related to the assassination of President Kennedy.

We are currently considering the various options you presented to us in regard to both preserving images for posterity, and conducting enhancements and analyses of various film images which have been the subject of controversy over the years.

We hope to be able to discuss with you which of the image preservation and analysis options we wish to pursue with Kodak. Before we are in a position to do that, however, we need to clarify certain legal and procedural questions that have presented themselves. We are working on resolving these questions and hope to have some resolution within the next several months.

Again, thank you for all of your assistance and that of the Eastman Kodak Company.

Sincerely,

David G. Marwell
Executive Director
