

MEMORANDUM

April 6, 2017

TO: Ro, Miller Reporting Company

FROM: Doug Horne, Assassination Records Review Board

SUBJECT: Corrections to Three ARRB Deposition Transcripts

Thank you for entering the substantial annotated corrections made by each witness to the deposition transcripts of both James W. Sibert and Francis X. O'Neill, Jr. Unfortunately, following my receipt of these two corrected transcripts prepared by Miller Reporting Company, I noticed a few key errors in the corrected transcripts that none of the reviewers had noticed previously--namely, that the ARRB's General Counsel, Mr. Jeremy Gunn, had been incorrectly described in the transcript as working for the U.S. Justice Department. I'm sure you will understand that since the ARRB is an independent Federal Agency, it is imperative that we correct this inaccuracy in each of these transcripts.

Accordingly, attachments 1 and 2 to this memo provide these few small, but significant corrections as we wish them to appear in the final, corrected versions of the Sibert and O'Neill transcripts. Please print 2 each corrected pages for each page that is corrected, and prepare a new data disk for each transcript. [It is not necessary to reprint the complete corrected transcript for the Sibert and O'Neill depositions--only the corrected pages.] I will manually insert the corrected pages into the corrected transcripts you previously provided.

Additionally, I have enclosed as attachment 3, corrections to the deposition transcript of Edward F. Reed, Jr. In this case, please enter the corrections, prepare two complete printed versions of the corrected transcript (including new blue covers), and send us a new data disk.

Please call me should you have any questions. Thank you.
