

MEMORANDUM

February 14, 1996

To: Jeremy Gunn

cc: Tim Wray

From: Doug Horne

Subject: Proposed Mission Statement for Oswald Project

1. I propose that the Oswald project be defined as follows:

A. Identify, locate and acquire for the archives Oswald's original school records, if they still exist;

B. Identify, locate and acquire for the archives all records related to Oswald's employment in the United States;

C. Locate all of Oswald's medical records and, where appropriate, determine chain of custody.

D. Wrap up DD-1173 study when DOD guidance on issuance of the DD-1173 I.D. card is obtained. If contemporary guidance on issuance of that I.D. card (effective 1959) is not forthcoming from DOD, then an interview of the issuing officer may become more desirable in order to understand the circumstances of the issuance of that document.
