

April 10, 2017

Ms. Sandra K. Spencer  
1230 Goetz Blvd.  
Joplin, Missouri 64801

Dear Ms. Spencer:

Thank you for returning to us, in such a prompt manner, the photocopy of your deposition transcript, with suggested changes noted in writing. The only changes we did not implement were on two occasions (on page 6) where you had attempted to change the word "photograph" to "transparency" in Mr. Gunn's questions; I'm sure you will understand that the only corrections we can allow witnesses to make are to their own responses. In any case, the statement you provided prior to his two follow-on questions referred to "slides" vice "photographs," so I feel confident that anyone reading the transcript will understand that Mr. Gunn was using the word "photograph" in a generic sense only (i.e., to mean "image").

Enclosed is your copy of the corrected transcript. I trust that you will find all proposed corrections to your own answers entered just as you submitted them to us, since I proofread the corrected version myself against the changes you submitted.

Thank you, again, for the cooperation you have extended to us; as a result, the Review Board has been able to create a more complete record of events surrounding the assassination than would have been possible otherwise.

Sincerely,

Douglas P. Horne  
Chief Analyst for Military Records
