

MEMORANDUM

September 27, 1995

BY FACSIMILE

To: Steve Tilley, NARA

From: Doug Horne, ARRB

Subject: Document Request

Steve, if possible, I would like to come out Thursday, September 28 and look at some documents. Identified below are 7 documents which I can clearly identify, and one other which I am told was released in response to a FOIA request in 1976 (and which I am not even sure is even in the collection--one would think it should be since it was released in 1976, but I just do not know, so I will give you all the information I have on it):

Seven (7) HSCA documents:

Agency File Number	Box
006551	
126	
002631	
65	
000640	
16	
002193	
52	
003272	
75	
014461	
258	
None (Record Number 179-30002-10345)	1

The FOIA document (reportedly released to a researcher in 1976) is:

"CIA document 450", purportedly produced by the CIA's National Photographic Interpretation Center (NPIC); Subject: Handling, Analysis and Reproduction of the Zapruder Film. The document is reportedly undated.

I'll call you Thursday morning to see if you are ready for me to come out. Thanks.
