

* JIM MARRS IS SENDING THE COPY OF THE SURVEY MAP OF DEALEY PLAZA USED IN THE WARREN COMMISSION WHICH HAS DIFFERENT FILM MARKINGS REGARDING THE ZAPRUDER FILM

* Interviewed with Bronson's attorney, John Sigalos, Esq. Bronson is alive & has the film. He has received an offer from the Sixth Floor Museum.

* Trask mentioned the Bettmann archives in new york as possibly having the nix & much more films. Their assistant director confirmed having numerous original upi photos & negatives, but was unsure about shots of dealey plaza. She said the films are probably in the hands of the families, but would not elaborate until she received the information packet I sent last week. They offered the opportunity to review their material since they don't maintain an inventory.

* contacted james tague regarding any new or additional records & sent a info pack to him. He is willing to assist in any way possible, but wants to read our packet to have a better understanding of our purpose.

* the initial design of the contact~witness database has been prepared & we prepared a group of categories for the checkmark list (show them). I began entering witness names according to the Ciccone map which lists appx 297 witnesses (in my office) & doing crosschecks against mary ferrell & the book "whos who in the jfk assassination". The identification of unidentified witnesses such as children present and other employees who may have been out that day is being performed. **This database will promote the accountability for all witnesses identified as well as any material records (ie: film, photo, audio, etc). The completion of a grid for dealey plaza is under way and contact~witness will account for those witnesses within it.**

* internet searches have initially identified appx 100 jfk related home pages on the world wide web. Some of these sites include: jfk
