Dear Ms. Gutierrez:

Pursuant to our conversation, I am enclosing a fact sheet re: our agency and the law pertaining to our activities. I assure you that the Review Board is a bonafide entity within the United States Government and that we are duly authorized to identify and secure all records related to the assassination of President John F. Kennedy. **Any effort to assist us in completing our mandate in this very time-sensitive matter would be greatly appreciated.**

Subject "**Patricia K. B. Gustafson**" is not suspected of any criminal violation, however verification of her current location, other information and possible assassination-related records does fall within the Review Board's jurisdiction. As you mentioned yesterday, her address on file when she became delinquent in 1982 is:

**Patricia K. B. Gustafson**  
**3785 Whitehall**  
**Dallas, TX 75229**

On behalf of the Review Board, I certainly understand your desire to make certain you know about any entity requesting information. Please feel free to call me at ext. 258 if any questions or problems arise. Thank you again and I look forward to hearing from you soon.

Sincerely,

David R. Montague  
Senior Investigator
