Subject: Topics for Discussion With Andy Purdy

In anticipation of our meeting with Mr. Purdy, Doug and I have prepared a *brief* outline of topics and questions we feel should be addressed. The outline is not intended to be an exhaustive list of all the questions that could be asked.

1. "Missing" Records

a. HSCA Staff Records

- understand your concerns about self-incrimination re: violation of HSCA policy about staffers taking records, but . . .
- Stokes letter, etc
- do you know of missing docs out there that should be in Archives?

b. Working Papers of Medical Panel

- did the doctors generate memos, notes, reports, etc.?
- did they leave them with HSCA when they left?
- if so, what happened to them (not in Archives)?
- was there a different policy for doctors regarding taking papers with them?

2. Humes & Boswell

a. Impressions/thoughts during HSCA

- why did Humes testify at hearing and not Boswell and Finck
- were all three doctors being candid during sessions with medical panel

b. Purdy's Recommendations

- any areas you feel should be clarified

- questions you wish you had asked
- what would you ask now

3. Other Medical Witnesses

- a. Was Jerrol Custer contacted (Unlikely Purdy will remember)?
- b. Why were some Parkland doctors contacted and not others?

4. Purdy

- How and why did your opinions change during the course of the HSCA investigation?

5. Additional
