

CIA SEQUESTERED COLLECTION

Approximately 12,500 Records to be reviewed. New streamlined review procedures combined with new Board standards for the Sequestered Collection give us confidence that we will be able to complete the task with one additional year. In a recent review of 35 of the original 63 boxes, the CIA consented to the release in full of over 17% of the records that were previously redacted. In addition, the CIA has new software that will speed the identification of the many duplicates in the collection.
