

Memo to Board

Subject: Records of the Metropolitan Crime Commission of New Orleans (MCC)

I concur with Phil Golrick's recommendations as outlined in the attached memorandum. In this instance, we are dealing almost exclusively with textual records in reasonably good condition that should be able to be reproduced without loss of information. We are hopeful that we can persuade the MCC to agree to a limited use of redactions and that there be a date certain for the full release of any redacted information.

I plan to send off the letter to Mr. Goyeneche by the middle of next week. Please let me know if you have any thoughts on our plan of action.
