

MEMORANDUM

DATE: Jan 25 1995

SUBJECT: Phone Conversation w/Peter Probst, Analyst, Special Operations and Low Intensity Conflict

I spoke w/Peter this morning and we discussed several issues:

-**Bill Roseneau**: Bill worked in the front office with Assistant Secretary of Defense for Special Operations and Low Intensity Conflict his boss was Jim Locher the ASD.

I spoke w/ LTC DeJesus(another SOLIC worker) and he did not Bill. He did mention that he could be trouble.

-Peter knows **David Phillips** former Chief of Station of Mexico City during a critical time period for us. 1961-1964

-Peter also gave me information on the **Association of Former Intelligence Officers(703)790-0320** which he suggested we use for possible recruitment of former Agency folks. Phillips was she founding father. I think we will wait on this.

-He did mention that the FBI had files on folks without any file numbers. These were used by the bureau so they couldn't be subpoenaed.

-He knows quite a bit about the agency during the critical period we are interested in. He did ask about some job prospects (either working full time/or consulting possibilities).
