Subject: Information on the Defense Intelligence Branches

The enclosed information is a preliminary look at the capabilities of the intelligence branches in the late 1950's-1960's vs the 1990's.

I tried to make functional/area connections if possible in order to track the records. Responsibilities have changed and agencies were created to streamline organization redundancies, especially in the area of investigations. It will be difficult but not impossible to locate the records.

I have a copy of the functions and responsibilities of the OACSI as of early 1964.

I have also included the DCSINTs (1994) office telephone directory.

All records for the OACSI/DCSINT's office are held at the 902nd MI Group, Records Facility, Fort Meade, MD. (301) 677-6762.
