

MEMORANDUM

November 8, 1996

BY FACSIMILE

To: Barry Harrelson, HRG, CIA

From: Jeremy Gunn

Subject: Follow-up to Request for Additional Information and Records No. 11

In response to information made available by the Lyndon Baines Johnson Library, I am writing to follow up on our on-going formal request No. CIA-11 regarding Silvia Duran's original statement. During a recent review of declassified JFK assassination records in the LBJ Library files, we came across a copy of a CIA cable (see attached) to the White House which directly refers, in the last paragraph of the last page, to the existence of a photostatic copy of Silvia Duran's interrogation report in Spanish that was forwarded to the FBI in late November 1963. We believe this evidence could be of assistance in your efforts to locate additional records on this subject. Could you also provide confirmation as to whether a copy of the Duran interrogation was actually forwarded to the FBI?

Thank you for your attention. We appreciate your continued assistance and cooperation.

Descriptive Name: Follow up to CIA Request 11
