JFK Library 176-10011-10044

**Miscellaneous Items**

177-10001-10445 original highlighted declass. work sheet, document is already in collection

1 record from the JFK Library bearing the original CIA stamp. The record has already been processed in the collection as a consent release.

One folder of documents that were referred to CIA. The documents had already been reviewed and are in the collection. This represents the results of a duplication of effort.

(LBJ Library had originally referred records as MR cases, meanwhile the Review Board coordinated the referrals through the joint session and was able to get the records processed sooner, but somehow the wires got crossed with this set.)

Letter from DOJ , EOUSA regarding LBJ Library referrals (from the Mildred Stegall collection.)

Note: I sent all these documents to Tina Houston for her to release to the collection.
