Re: Status of LBJ Library Documents Referred by ARRB

Dear Tina:

We have made considerable progress with agency referrals and declassification of assassination records referred to the Review Board from the LBJ Library collection. Over the past month and a half, representatives from CIA, OSD, JCS, NSC, FBI, State Department and Secret Service have reviewed documents containing their agency's equities. With the exception of some Vietnam-related documents referred to OSD and another dozen documents awaiting CIA concurrence, these agencies have completed their review and have given consent to the full release of the majority of these documents, totalling 154 thus far. In addition, all documents containing codeword material have just been referred to NSA, and we anticipate the determinations will be made before the next Board meeting on February 17.

The documents now designated as open in full will be noticed in the February publication of the Federal Register. Attached you will find a list of consent releases, as well as those documents containing postponements that were voted on by the Board. Please note that this list also includes the current status of the LBJ Library's mandatory review cases which we included as part of our declassification effort. We hope this will facilitate your updating the information on the record identification forms (RIFs). The RIFs will need to reflect the current status of all documents prior to their release at NARA.

Please call if you have any questions regarding these documents.

Once again, we appreciate your assistance.

Sincerely,

Irene F. Marr  
Senior Analyst
