As agreed, the Review Board staff prepared the sanitized copies which your staff can compare to the original documents. The postponement codes are marked on the sanitized copies and are explained in the accompanying Final Determination forms, also attached. The Review Board will forward the original highlighted copies, the original Review/Postponement forms, and the Final Determination Forms to NARA. I have been in regular contact with Jennifer Warner who has been expecting these documents. She indicated that once she had the sanitized copies, she would complete their processing and updating of RIFs, then forward the new RIFs and the sanitized documents to NARA. We expect to be complete with the remaining referrals in April. We do not need the updated database reflecting the change in status until all documents have been completed.

Once again, thank you for your assistance.
