

## MEMORANDUM

May 12, 2017

### BY REGISTERED MAIL

To: Tina Houston, LBJ Library

From: Irene Marr, ARRB

Subject: Documents Returned to LBJ Library

Enclosed please find the following items:

1. Marty Underwood's oral history, because he did not sign the deed, we are returning the entire document and understand that you have sent the portions relevant to the assassination to the JFK Collection.
2. Sanitized copies of latest documents voted on by the Board.
3. Records from the Mildred Stegall collection, most of which were reviewed and authorized for release by the FBI. The Executive Office of the U.S. Attorneys did not find any information of interest in those documents we referred to them per suggestion of FBI. I will let you determine whether those particular records which I have tagged need to be referred to other agencies. One document has postponements; please prepare the sanitized copy for the JFK Collection.

In addition, the following Johnson Library documents are still awaiting referral:

Records with foreign government equities:

177-10001-10278

177-10002-10109

The Department of State has no objections to releasing these records with the concurrence of the appropriate foreign government. The Review Board has coordinated the referrals, but does not expect an answer before September 30. We will send the documents to NARA as part of our

package of documents that are in the referral pipeline.
