Re: DOD Request for Postponements in HSCA Record 180-10110-10075

Dear Ms. Christensen:

Pursuant to our conversation, I have enclosed copies of both the above referenced House Select Committee on Assassinations record and Associate Deputy General Counsel Stewart Aly's letter of March 6, 1996.

In his letter of March 6, Mr. Aly indicates he is seeking postponements in "Document 3," this document being HSCA Record 180-10110-10075 (see the 1/25/96 endorsement sheet, a copy of which is also attached). It is not clear to the ARRB what specific postponements he is seeking in this document, however, since he did not attach an annotated copy of it with his letter.

The information we need is whether DOD in fact desires to postpone any portion of HSCA Record 180-10110-10075 and, if it does, what specific redactions the Department is seeking, as well as any evidence it wishes to present in support of such redactions.

Thank you very much for your assistance in resolving this issue.

Sincerely,

Joseph P. Freeman
