Dear Mr. Ullrich:

I wanted to extend my sincere thanks for the cooperation you extended to Joe Freeman of our staff during his trip to UT-Martin to review the McCombs Papers. Joe was effusive in his praise for the level of support you provided to his efforts, and I am grateful for the assistance you proffered him.

Like so many others, Holland McCombs played an interesting role in the immediate post-assassination history of our country. The inclusion of a relevant selection from his papers in the JFK Collection at the National Archives is both appropriate and welcome.

As time goes on and more researchers become aware of assassination-related material in the McCombs Papers, I'm sure you will have additional visitors to UT-Martin. If Joe's account of his reception is any indication, they will all be glad to have made the trip. Thanks again.

Sincerely,

David G. Marwell
Executive Director
