Subject: Alleged Photographs of President Kennedy Taken at Parkland Hospital

As we discussed, I've attached a copy of an FBI document in which an Eva McCarty states that a friend of hers -- Paulette Caruthers, a photographer at Parkland Hospital -- claimed to have seen photographs taken of President Kennedy at Parkland Hospital. I don't believe I've come across a reference to *photographs* (as opposed to X-Rays) from Parkland before. I've not run this by the FBI team, so you may want to check with them.
