Subject: Additional tidbits from Garrison files

- **Kimbrough of Dallas, photos, etc.** - see attached untitled, unaddressed two page note to Garrison from someone in Dallas (might be Mary Ferrell), re: Kimbrough and his photos. Don't know if this is already out there or not. Kimbrough, coincidentally, was related by marriage to the Reily's of NO.
- **Oswald's height** - FYI and mainly for Jeremy, a memo from L. Ivon to Garrison about various citations for Oswald's height; relevant to the LHO imposter issue.
- **½/68 Loisel memo to Garrison, re: Ronald Augustinovich/CIA** - I've come across this name somewhere else recently (probably in the Garrison boxes) but can't place it at the moment...aside from providing names for the CIA team to check up on, the memo references *photos*. For what it's worth.
- **Charles Burnes/assassination-day run-in with Jeanette Conforto (aka Jada)** - 3/11/67 memo from Frank Meloche to Garrison relates a lead from a guy (Burnes) who had an accident/altercation with Jack Ruby's stripper "Jada" a half-hour or so *before* the President was killed. Allegedly, Jada was on her way to New Orleans and, in response to a question, indicated that the Carousel Club would not be open that night. *She allegedly said this before the assassination.*
- **Interview with Gerald Patrick Hemming in which he alleges that John William Reily of the Reily Coffee Company "was working for the CIA for years."** - see attached 5/8/68 memo to Garrison from Steve Burton.
- **Three page unsigned letter to Garrison detailing life with the Friends of Democratic Cuba in 1961** - FYI only, interesting portrait of anti-Castro Cuban activity in NO.
