

Memorandum

September 11, 1995

To: Jeremy Gunn
 Anne Buttimer

From: Joe Freeman

Subjects: Garrison Boxes III

- **“Ferrie in Canada” item in 9/8/95 memo, update/correction** - the informant who allegedly overheard Ferrie talking about the assassination in Feb. of ‘64 *has* been publicly identified as Richard Giesbrecht (1967 magazine article attached -- found in Garrison papers; also referenced in Benson’s *Who’s Who...*, p. 152, and in *The Kennedy Conspiracy*). Sorry to mislead you.
- **Address for Mae Brussels’, re: research on Russian community in Dallas (see my 8/22/95 memo, “Tom Bethell Diary” entry, item 2)** -- see attached letter from Brussels to Garrison with her address: Route 2, Box 3050, Carmel CA 93921.
- **Kimbrough address (see previous memo of 9/8, item 1)** -- I’ve come across a 2/20/67 letter from a Mr. A.P. Kimbrough (4008 Shannon Lane, Dallas TX) which is probably the same Kimbrough referred to in the previous memo.
- **Raymond “Pete” Acker and Ruby/Oswald telephone records** - see attached 9/18/67 Matt Herron memo to Garrison, re: possible proof of phone calls between Ruby and Oswald. Story goes that Ruby would call Oswald at his rooming house and, when somebody else was on the phone, tell the operator his call was an emergency and get the operator to break in on whoever was on the phone so he could talk to Oswald. When an operator does this, supposedly, he/she is required to make a record of it. The memo lists a 1967 address and phone number for Acker.
- **Valentine Ashworth and Oswald/Shaw allegation** -- see attached memo concerning and letter from Valentine Ashworth, who claims to have known Oswald

both before and after his Russian period, and who links Oswald with Shaw and an assassination plot. This is not a lead I'm familiar with, so I thought I'd pass it along. The memo and letter also include the name and phone number of Ashworth's lawyer. It should be noted that Ashworth was incarcerated at the time and wanted Garrison's help in getting released and deported.

- **FYI only, attached *JFK* postscript with Garrison annotations** -- this appears to be a copy of the final page of the script for the movie, with two notes from Garrison to Oliver Stone: 1) "Oliver: 12/12/90 As I've indicated to you before, the Mob speculation and other fantasies in your screenplay never happened in any way. However, let's have it your way. Let's get started on the movie. When does the filming begin? JG", and 2) referencing the item concerning Garrison's wife Elizabeth leaving him in 1978, "Very heavy fiction here. Who laid this one on you? No matter. Okay with me! JG 12/12/90 When do we start filming?"
