

MEMORANDUM

October 3, 1996

To: Chet Rhodes, David Marwell, Valerie Sails
cc - Brian Rosen

From: Joe Freeman

Subject: Outstanding Odds and Ends, re: CIA-returned HSCA records

Listed below are changes which need to be made in the Valerie/CIA-returned database or view. I have replicated items already communicated in my E-mail of 10/1, but have not included those items which David will be handing over directly to Val.

Documents which need to be deleted from database because they need to be reviewed in Review Track [E-mail of 10/1]:

180-10092-10206
180-10092-10212
180-10092-10219
180-10092-10221
180-10092-10244
180-10075-10325

Documents which are among the 117 "lost" records which need to be tagged as containing 3rd agency equities (and thus not dumped into the consent database):

180-10070-10247
180-10075-10045
180-10083-10103
180-10105-10297
180-10108-10199
180-10114-10178

Documents which need to be deleted because there is some kind of problem with them and they need to be shown to Barry Harrelson again:

180-10012-10448
180-10115-10052

Documents currently listed as *not* containing other-agency equities which in fact *do* have them and thus need to be tagged as such (so that they don't get dumped into the consent database):

180-10094-10361
180-10096-10373
180-10099-10104
180-10099-10492
180-10109-10160
180-10112-10423

Documents which need to be deleted because it has been established that the record numbers are incorrect:

180-10087-10319
180-10099-10384

Documents which need to be *added* to the database because they represent the correct record number for the two documents referenced above:

180-10087-10311
180-10099-10304

Document which needs to be deleted in database because, while the CIA has consented to its release, it contains a SSN which the Board needs to redact via the Review Track process:

180-10071-10080

Brand-new record numbers which need to be *created* in our system and *added* to the database:

180-10147-10272
180-10147-10273
